

Please join us in protecting DRUG FREE TEENS!

Drug Free Clubs of America is a positive reinforcement approach to keeping teens drug free. We rely on civic-minded businesses like yours to show students that they are surrounded by support at home, in school, and in the very community in which they live. When a student joins Drug Free Clubs of America *we all work together* to recognize them for their healthy decisions.

**When "No"
Isn't Enough,
We Give Our
Members The
Power To Say
"I CAN'T"**

After passing a voluntary drug test, each member is given a full color photo ID identifying them as a Club member. The ID is similar to a driver's license and features their name, photo, school, a member number and an expiration date. Members use their card as their key to special offers from community businesses as recognition of their good decisions. This could include free items, special events, discounts, and any other offer you can think of that fits your marketing goals and sets these teens on a pedestal. We return to the school throughout the year to randomly retest Drug Free Club members. This two part strategy of constant recognition and the ability to say, "I Can't, I might get tested", is the perfect combination of prevention tools our students need to keep them on the right track.

GET INVOLVED TO MAKE A DIFFERENCE!

Students love when a new company hops on board to show they care. There is no cost to participate, the only rule is to **BE CREATIVE!** You know your product, staff, and capabilities. Think about what might make a teenager feel special and let us know your ideas. Free items, BOGO's, a special privilege, or a certain dollar amount off all work well.

All you have to do is take just a moment to complete the short form attached, and you're finished! Once we receive it we will be in touch. You will receive an image of the ID card you should ask for as evidence when a member redeems your reward. You will also receive a window cling to proudly show the community and our members that your business cares about their health and safety.

Thank you for considering our request, and for taking action.

Your participation truly does make a difference.
