Five Year Forecast

FY2016-FY2020 (Submitted May 2016)

Auburn Career Center Five Year Forecast Assumptions FY16-20 (Summary) Submitted May 2016

The District:

Auburn Career Center is technically a Vocational School District within the definition of Ohio Revised Code and is comprised of eleven participating districts in Lake and Geauga County. Those districts include: Berkshire, Cardinal, Chardon, Kenston, Newbury, Fairport, Kirtland, Madison, Painesville City, Riverside and Perry Local.

Overview:

This financial forecast for the general operating fund is prepared according to the requirements legislated by HB412 and the district has prepared financial forecasts as a routine for many years and believes it is a valuable management tool. This forecast is an estimate of the most probable financial position, results of operations and changes in financial position for the five-year period. "Most probable" means that the assumptions have been evaluated by management and that the forecast is based upon management's judgment of the most likely set of conditions and its most likely course of action. "Most probable" is not used in a mathematical or statistical sense.

Summary Notes:

Revenue:

- Both Geauga and Lake County completed the sexennial tax value updates in 2011 and 2012 respectively. The triennial update occurred for Geauga County in 2014 and in 2015 for Lake County. Therefore, the full reappraisal will be 2017 for Geauga County and 2018 for Lake County. The forecast assumes that property values will remain relatively stable. The additional tax revenue as a result of the Ledgemont/Berkshire merger has been projected to begin with the spring, FY2017 tax settlement.
- Foundation levels have been adjusted to reflect the estimates received from the Ohio Department of Education and Department of Taxation. Estimates of HB64 forecast that Auburn will remain on the transitional aid guarantee in FY2016 and an additional \$2,780 in FY2017. Auburn will no longer receive TPP reimbursement and electric deregulation. Also, shown in this line item are casino revenue and open enrollment adjustments/transfers.
- HB59 removes property rollback reimbursement on any levies approved in November, 2013 and thereafter. Homestead is beginning to phase-out as well. However, local tax collections will offset.
- Adult Funds are anticipated to repay the general fund for advances over the next five years. The balance owed at of the beginning of FY16 is \$1,155,000.
 Projections reflect \$100,000 each year FY2016-FY2020.
- Student Constructed House sold in FY2013 and another is anticipated to be sold in FY2016 but will close in FY2017. The forecast reflects a cycle of a June completion and sale with a close date in next fiscal year.

Expense:

- FY2016 salaries reflect a 9.76% decrease due to staff reductions, shared service agreements and attrition. In FY17, projections reflect salaries for open positions that were vacated during the school year but have been unfilled to date. The remaining projected years are assumed to increase by scheduled experience steps and educational advancements only.
- Healthcare premiums have increased 19% in FY2016 but due to a premium holiday, the actual increase is 10%. FY2017 has been projected at a 4% increase in premiums and all other years are estimated at a 6% increase.
- Purchased Services and Supplies have been projected with a decrease of 26.56% and 3.58% respectively for FY16 due to the expenditure reduction initiatives put in place with regards to professional development, travel and centralized supply ordering. In addition, legal expenses are projected to be down 37% compared to FY15 and natural gas expense is projected to realize a 65% decrease due to the gas program Auburn is participating in through Ohio Schools Council. Slight increases have been projected for FY2017-FY2020 based on historical trend data.
- Capital Outlay allocates \$400,000 for FY2016 and \$350,000 for FY2017-FY2020 for capital projects. In addition, there is an allocation of \$125,000 per year for instructional, technology and maintenance equipment purchases. It should be noted that many of the equipment purchases continue to be funded by Perkins Grants and REAP funds. Five-Year Facilities Plan is not included in the forecast. FY17 reflects the purchase of three (3) lots for construction student houses. These lots are estimated at \$67,500 each. This expense is removed in FY18 through FY20
- Other objects include expenditures such as county auditor fees, state auditor fees, membership dues and other miscellaneous expenditures. This line item also reflects the repayment of the Lease-Purchase agreement with Fifth Third Bank beginning in June, 2016 for the Technology Learning Center addition project. Projections reflect a 3% increase to the previous year's total expenditure.
- Debt will be paid from the general fund for the two roof replacement projects totaling \$5.1 million in bond issues and included \$1.065 million for HB264 energy improvements. Debt repayment for the Industrial Arts Facility is also included for a \$600,000 bond issue. The following table reflects the debt repayment schedule:

Fiscal Yr.	Principal	Interest	<u>Total</u>
2015	330,000	145,499	475,499

Dear Ms. Lynch:

Enclosed for your review and approval is a copy of the tabulation of bids for all bidders on the above referenced project. We have thoroughly evaluated the bid by the apparent low bidder, Whitehouse Construction Company (WCC), and have determined them to be responsive and responsible, and that the contract price is considered fair and reasonable. We have done our due-diligence in regards to reference checks provided in their contractor's qualifications and have found that WCC has a good performance and quality record with public owners ranging from municipalities and public entities as well as with the architect.

Cold Harbor Building Company in accordance with HSB Architects hereby recommends that award for the construction contract go to Whitehouse Construction Company in the amount of \$169,200.00; which includes the Base Bid, Contingency and bid alternates #1 and 4. Based on the published construction budget this project is well within the awardable limits. The additional funds left in budget would be used, to the extent they are required, for door replacement unit prices received with the bid. These unit prices were bid for door replacements, this replacement would be done to the extent of the availability of the budget and decided upon on a "greatest need, first replaced" basis. The bid award has an in contract contingency to accommodate the needed miscellaneous repairs required above and beyond specific doors.

The budget for the project was set by the School Board at \$300,000.00. Attached is the budget for the project inclusive of the items that would be covered in the award as well as listed on the budget.
