Dear President Erik L. Walter,

It is the want of this organization that this letter be shared with your fellow board members privately at the next meeting of your board and submitted for the record.

This membership has discussed and would like to convey the following concerns regarding the recent decision of your board to increase the classroom limit size of all Auburn High School programs from the current 20 pupils to 24.

In no particular order:

- 1) This decision has real safety concerns for that of our students as well as our staff, especially for our heavy trades, EMS and Cosmetology programs.
- 2) This decision was made without any input from Auburn stakeholders; that is the faculty and staff directly affected by this increase in enrollment.
- 3) This decision has the outward appearance of being retaliatory in response to an unsuccessful mediation.
- 4) This decision was not formally made known to the staff until several days after it was voted on at the board meeting in question.
- 5) This decision offers little to no compensation (monetarily or otherwise) to those directly affected.

We would appreciate if you and your board would kindly take these concerns into consideration moving forward. We ask also that in the future such decisions are clearly, timely, and transparently made to the staff.

Thank you for your time and attention,

Career and Technical Association of Auburn Career Center

## **Five Year Forecast Assumptions FY22-26 (Summary)** **Submitted May 2022**

### **The District:**

Auburn Career Center is officially a Vocational School District within the definition of Ohio Revised Code and is comprised of ten participating districts in Lake and Geauga County. Those districts include: Berkshire, Cardinal, Chardon, Kenston, Fairport, Kirtland, Madison, Painesville City, Riverside and Perry Local.

### **Overview:**

This financial forecast for the general operating fund is prepared according to the requirements legislated by HB412 and the district has prepared financial forecasts as a routine for many years and believes it is a valuable management tool. This forecast is an estimate of the most probable financial position, results of operations and changes in financial position for the five-year period. “Most probable” means that the assumptions have been evaluated by management and that the forecast is based upon management’s judgment of the most likely set of conditions and its most likely course of action. “Most probable” is not used in a mathematical or statistical sense.

### **Summary Notes:**

#### **Revenue:**

Geauga and Lake County completed the sexennial tax value updates in 2017 and 2018 respectively. The triennial updates for Geauga and Lake County were completed in 2020 and 2021 respectively. Therefore, the next full reappraisal will be 2023 for Geauga County and 2024 for Lake County. In FY2021, we realized an increase in tax collections due to the completion of the triennial update in Geauga County. Geauga’s residential property increase equated to an average of 10.15% per Auditor Walden. Therefore, for FY2022, I have applied the same percentage for Lake County. Additionally, the Newbury property tax loss has been projected in the forecast beginning with tax collections received in the first half of 2022. Based on trend, projections are calculated at a 95% collection rate.

- HB59 removed property rollback reimbursement on any new levies approved in November, 2013 and thereafter. However, local tax collections will offset on any new levies.

- Foundation levels in FY2022 are projected at the current funding levels provided by the Ohio Department of Education and the Office of Budget and Management. Also, shown in this line item are casino revenue and open enrollment adjustments/transfers.
- Governor DeWine's Fiscal Year 2022-2023 Executive Budget was released February 1, 2021. Upon its passage in July, 2021, the Office of Budget and Management originally committed to an October timeline in which districts would be provided the actual state funding allocations; however, this is still an ongoing process today due to the complexities that have arisen during the implementation of the ***Fair School Funding Plan***. The ***Fair School Funding Plan*** is a system for funding schools that can be broken down into three main components: the base cost; the state and local share; and additional targeted assistance/categorical aid. HB110 approved only two years of what is expected to be a six year phase in.
- Therefore, state funding levels in FY2022-FY2023 are projected pursuant to simulations provided as well as the current funding settlements from the Ohio Department of Education.
- Additionally, the budget bill moved the Student Wellness funding from fund 467 into the general fund. It is deemed restricted funding and is shown in Line 1.040 of the forecast.
- Adult Workforce continues to excel and we are seeing continued growth in programming. The balance still owed to the general fund at the end of FY2021 was \$855,000. The five year forecast reflects a payback schedule of \$100,000 per year for FY2022-FY2026. However, this is analyzed at the end of each fiscal year to determine if the transfer of additional funds are feasible. The \$100,000 per year will continue to be assumed beyond FY2026 and, until such time the advances have been totally repaid to the general fund.
- All other revenues are projected to realize a 1% increase each year. Due to economic declines, interest rates have plummeted; therefore, interest income has been projected to decrease 50%.
- Line 2.060 includes revenue from the sale of the "*unfinished*" FY2020 student house and the vacant lot east of the house. The proceeds received from the house was \$245,342.40 and the vacant lot was \$63,407.30 totaling \$308,749.70. FY2023 and beyond no longer reflects this source of revenue as the district is no longer building homes effective the 2020-2021 school year.

**Expense:**

- FY2022 salaries are showing a 3% increase compared to FY2021. FY2023 reflects the initial projections of additional staff due to the recent enrollment policy

change. The remaining years assume only step and educational advancements that is projected at 2%.

- FY2022 estimates reflect a 3.5% increase in healthcare premiums. FY2023 and all remaining years are projected with a 10% increase. These estimates have been supplied by the Lake County School Council based on current industry standards. FY2023 also reflects the corresponding increase in benefits due to the recent enrollment policy change
- In March, 2022, Lake County School Council approved a third healthcare premium holiday. The forecast reflects half of the reduction in June, 2022 and the remaining in July, 2022.
- Purchased Services have realized an 8% increase when compared to FY2021. I would attribute this to high inflationary increases and supply chain issues. Additionally, FY2023-FY2026 reflect a 5% inflationary increase and the initial projections of additional services due to the recent enrollment policy change.
- Supplies have realized a 20% increase when compared to FY2021. I would attribute this to high inflationary increases and supply chain issues, as well. Additionally, FY2023-FY2026 reflect a 5% inflationary increase and the initial projections of additional instructional supplies due to the recent enrollment policy change.
- Capital Outlay estimates have been increased to \$300,000 per year for technology maintenance, and equipment purchases. The increase is necessary based on the trend we have seen over the last several years. Additionally, FY2023 reflects anticipated classroom improvements and technology due to the recent enrollment policy change. We continue to use the Perkins grant for program equipment upgrades; however, these funds continue to be reduced resulting in the need to shift the burden back to the general fund.
- Other objects include expenditures such as liability insurance, county auditor fees, state auditor fees, membership dues and other miscellaneous expenditures. Projections reflect a 3% increase to the previous year's total expenditure.
- Debt will continue to be paid from the general fund for the two roof replacement projects totaling \$5.1 million in bond issues which included \$1.060 million for HB264 energy improvements. Debt repayment for the Industrial Arts Facility is also included for a \$600,000 bond issue. Debt repayment for the \$1.745 million bond issuance for the B-wing roof replacement and TLC parking lot replacement. Debt repayment for the \$1.3 million bond issuance for the Horticulture parking lot, main building window replacement, an outside classroom, other miscellaneous furnishing and equipment. The following tables reflect the debt repayment schedule and maturity:

FISCAL YR.	TOTAL PRINCIPAL/INTEREST
2022	\$758,196

2023	\$748,085
2024	\$752,599
2025	\$751,545
2026	\$758,924

BOND	MATURITY
\$2,800,000	6/1/2026
\$2,300,000	6/1/2027
\$ 600,000	6/1/2027
\$1,300,000	6/1/2030
\$1,745,000	12/1/2033

- Additionally, line 5.010 and 5.020 include projections of transfers to the Capital Improvement fund, Principal fund and Food Service.

## 2271 – COLLEGE CREDIT PLUS PROGRAM

The Board of Education recognizes the value to students and to the District for students to participate in programs offered by accredited colleges and universities in Ohio.

The Board will approve participation by students who apply to the participating college or university (institute of higher education or IHE) and meet the IHE's and relevant academic program's established standards for admission, enrollment, and course placement. Participating students will be eligible to receive secondary credit for completing any of these programs. To be eligible, students must be in seventh, eighth, ninth, tenth, eleventh, or twelfth grade and must either be remediation-free in one (1) of the assessments established under R.C. 3345.061(F) or meet an alternative remediation-free eligibility option as defined by the Chancellor of Higher Education in consultation with the Superintendent of Public Instruction. Students who participated in the College Credit Plus program before September 30, 2021 and who qualified to participate in accordance with prior law by scoring within one (1) of the required assessments and having a cumulative high school grade point average of at least 3.0, or alternatively receiving a recommendation from a school counselor, principal, or career-technical program advisor, may remain eligible to participate.

In addition, under Federal and State law, male students who are eighteen (18) years of age or older and who are classified as an Ohio resident by the public college or university they are attending through the College Credit Plus program are required to be registered with the Selective Service System. Participating male students are required to provide their Selective Service number to the public college or university within thirty (30) days of their 18th birthday. If such students do not submit their Selective Service number, they will not be considered a College Credit Plus participant for that current semester or term and will be responsible for any tuition, textbooks, or fees associated with the classes for which they are enrolled.

### Underperforming and Ineligible Students

If a student participating in the College Credit Plus Program under the option set forth in R.C. 3365.06 (B) either: A) fails to maintain a grade point average of 2.0 or higher in the college courses taken through the College Credit Plus Program; or B) withdraws from, or receives no credit for two (2) or more courses in the same term, the student will be considered an underperforming student. If a student maintains underperforming student status for two (2) consecutive terms of enrollment, the student will be deemed "ineligible."

### Probation

Immediately after determining a student has obtained underperforming student status, the Superintendent shall place the student on probation within the College Credit Plus Program and notify the underperforming student, his/her parents, and each IHE in which the student is enrolled of his/her status. The underperforming student and his/her parents shall also be notified of the following requirements for continued participation in the Program while on probation:

- A. The student shall only enroll in one (1) college course during any term.
- B. The student shall refrain from enrolling in a college course in the same subject as a college course in which the student earned a grade of "D" or "F" or for which the student received no credit.
- C. If the student had registered for more than one (1) college course for the next term prior to being placed on probation, the student shall request each IHE in which s/he is enrolled to dis-enroll the student from those courses that conflict with the terms of his/her probationary status.
  - 1. If a student elects to remain enrolled in one (1) course for the next term, s/he shall inform the IHE of the course in which the student would like to remain enrolled.
  - 2. If the student fails to dis-enroll from any courses that conflict with his/her probationary status, the Superintendent shall immediately notify the student and his/her parents that the student shall assume responsibility for any and all tuition, fees, and costs for textbooks for any courses from which the student was required to dis-enroll. In this notification, the student and his/her parents shall also be advised that the student shall be deemed an ineligible student and dismissed from the program for the next term in accordance with the dismissal procedures set forth below.
- D. If a student takes a course after being placed on probation and such course raises the student's cumulative grade point average to 2.0 or higher in the college courses taken through the College Credit Plus Program, the student shall be removed from probation. The student may participate in the Program without restrictions unless s/he is declared to be an underperforming student again.
- E. If a student takes a course after being placed on probation and such course does not raise the student's cumulative grade point average to 2.0 or higher in the college courses taken through the College Credit Plus Program, the student shall be dismissed from the Program in accordance with the dismissal procedures set forth below.

#### Dismissal

If a student is deemed ineligible to participate in the College Credit Plus Program, s/he will be dismissed from the Program. The Superintendent shall notify the ineligible student, his/her parents, and each IHE in which the student is enrolled of his/her dismissal. The ineligible student and his/her parents shall also be notified that the student shall not take any college courses through the Program following his/her dismissal.

If the student had registered for more than one (1) college course for the next term prior to being dismissed from the Program, the student shall request each IHE in which s/he is enrolled to dis-enroll the student from the Program.

If the student fails to dis-enroll following his/her dismissal from the Program, the Superintendent shall immediately notify the student and his/her parents that the student shall assume responsibility for any and all tuition, fees, and costs for textbooks for any courses from which the student was required to dis-enroll. In this notification, the student and his/her parents shall also be advised that the Superintendent shall extend/continue the student's dismissal from the Program for an additional term.

### Reinstatement

Following one (1) term of dismissal a student may submit a request to the Superintendent to be reinstated to the College Credit Plus Program. Summer shall only be counted as a term if the student is enrolled in one (1) or more high school courses during the summer. Upon receipt of the reinstatement request, the student's full high school and college academic record will be reviewed to determine whether the student has achieved academic progress and whether s/he will be reinstated on probation or without restriction.

Reinstatement on Probation: In order to be reinstated to the College Credit Plus Program on probation, the student must meet the academic progress criteria as determined by the Superintendent.

If the student fails to demonstrate academic progress as defined above, the Superintendent shall extend/continue the student's dismissal for an additional term(s). During the dismissal period, the student shall remain ineligible to participate in the College Credit Plus Program until academic progress is achieved.

### Appeals

Any student who is dismissed from the College Credit Plus Program or prohibited from taking a course in which the student earned a grade of "D" or "F" or for which the student received no credit may appeal the decision to the Superintendent. The appeal must be filed within five (5) business days after the student is notified of the dismissal or prohibition against taking a course. Upon receiving the appeal, the Superintendent must immediately notify each IHE in which the student is enrolled that the student has filed an appeal.

When reviewing a student's appeal, the Superintendent shall consider any extenuating circumstances separate from the student's academic performance that may have affected or otherwise impacted the student's status in the College Credit Plus Program. After considering such information, the Superintendent may:

- A. allow the student to participate in the Program without restrictions;

- B. allow the student to take a course in which the student earned a grade of "D" or "F" or for which the student received no credit;
- C. allow the student to participate in the Program on probation; or
- D. maintain the student's dismissal from the Program.

The Superintendent shall issue a decision on the student's appeal within ten (10) business days after the date the appeal is filed. The Superintendent's decision shall be final and s/he shall immediately provide notification of the decision to each IHE in which the student is enrolled.

- A. If the Superintendent decides to continue the student's dismissal from the College Credit Plus Program and the student is enrolled in an Institution of Higher Education, such IHE shall permit the student to withdraw from all courses in which the student is enrolled without penalty. The Board shall not be required to pay for such courses.
- B. If the Superintendent fails to issue a timely decision after the date the appeal is made and the student is enrolled in an Institution of Higher Education, such IHE shall permit the student to withdraw from all courses in which the student is enrolled without penalty. If the decision is issued after the IHE's no-fault withdrawal date, the Board shall be required to pay for such courses.

#### Home-Schooled Students

If a home-schooled student participating in the College Credit Plus Program is placed on probation or dismissed from the Program, the parent of the student shall be responsible for notifying each IHE in which the student is enrolled of such probation or dismissal.

The Board will provide information about the College Credit Plus Program prior to February 1st to all students enrolled in grades six (6) through eleven (11) and their parents. The Board will also promote the College Credit Plus Program on its website, including the details of the Board's current agreements with partnering IHEs.

All students must meet the requirements for participating in the College Credit Plus Program.

The Board shall deny high school credit for the College Credit Plus Program courses, any portion of which are taken during the period of a student's expulsion. If the student has elected to receive credit for course(s) toward fulfilling graduation requirements as well as the College Credit Plus Program credit, that election is automatically revoked for all college courses in which the student enrolled during the college term in which the expulsion is imposed.

When a student is expelled, the Board directs the Superintendent to send written notice of the expulsion to any college in which the expelled student is enrolled under R.C. 3365.03 (College Credit Plus Program) at the time the expulsion is imposed. This notice shall indicate the date the

expulsion is scheduled to expire and that the Board has adopted a policy under R.C. 3313.613 to deny high school credit for College Credit Plus Program courses taken during an expulsion. If the expulsion period is later extended, the Superintendent shall notify the college of the extension.

The Board will collect, report, and track program data annually in accordance with data reporting guidelines adopted by the Chancellor and the Superintendent of Public Instruction pursuant to R.C. 3365.15.

The Superintendent shall establish the necessary administrative guidelines to comply with State law which will thereafter be properly communicated to both students and their parents. The Superintendent shall also establish guidelines and procedures for the awarding of credit and the proper entry of a student's transcript and other records of his/her participation in a College Credit Plus Program.

- A. Identification, in District accounts, of all grant awards received and expended and the programs under which they were received. For Federal programs and awards, identification shall include the Catalog of Federal Domestic Assistance ("CFDA") title and number, Federal award identification number and year, name of the Federal agency and name of the pass-through entity, as applicable.
- B. Accurate, current, and complete disclosure of the financial results of each Federal award or program in accordance with the reporting requirements of the grant.
- C. Records that identify adequately the source and application of funds provided for Federally-funded activities. These records must contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, expenditures, income and interest and be supported by source documentation.
- D. Effective control over, and accountability for, all funds, property, and other assets. The District must adequately safeguard all assets and assure that they are used solely for authorized purposes.

Further, the District must:

- 1. establish and maintain effective internal control over the Federal award that provides reasonable assurance that the District is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award;
  - 2. comply with Federal statutes, regulations and the terms and conditions of the Federal award;
  - 3. evaluate and monitor the District's compliance with statutes, regulations and the terms and conditions of the Federal award;
  - 4. take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings;
  - 5. take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive consistent with applicable Federal, State, local, and tribal laws regarding privacy and obligations of confidentiality.
- E. Comparison of expenditures with budget amounts for each Federal award.
  - F. Recordkeeping and written procedures to the extent requires by Federal, State, local and grantor rules and regulations pertaining to the grant award and accountability, including, but not limited to, the following areas:

  2. allowability
  3. conflict of interest
  4. procurement
  5. equipment management

- G. Disclosure of any potential conflict of interest and all mandatory violation disclosures potentially affecting the Federal award/grant to the Federal awarding agency or pass through agency in accordance with applicable Federal policy.
- H. Insurance coverage for real property and equipment, if applicable, equivalent to such property owned by the District.

### **Program Income**

Program income means gross income earned by a grant recipient that is directly generated by a supported activity or earned as a result of the Federal award during the grant's period of performance.

It includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under Federal awards, the sale of commodities or items fabricated under a Federal award, license fees and royalties on patents and copyrights, and principal and interest on loans made with Federal award funds. Interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal statutes, regulations or the terms and conditions of the Federal award, program income does not include rebates, credits, discounts and interest earned on any of them. Additionally, taxes, special assessments, levies, fines and other such revenues raised by a recipient are not program income unless the revenues are specifically identified in the Federal award or Federal awarding agency regulations as program income. Finally, proceeds from the sale of real property, equipment or supplies are not program income.

Unless it has received prior approval to use a different method or the terms and conditions of the grant authorize a different method, the District uses the deduction method of accounting for program income. Under the deduction method, program income is deducted from total allowable costs to determine the net allowable costs. Program income will only be used for current costs unless the District is otherwise directed by the Federal awarding agency or pass-through entity.

## **61142 - COST PRINCIPLES – SPENDING FEDERAL FUNDS**

The Superintendent is responsible for the efficient and effective administration of grant funds through the application of sound management practices. Such funds shall be administered in a manner consistent with all applicable Federal, State and local laws, the associated agreements/assurances, program objectives, and the specific terms and conditions of the grant award.

### **Cost Principles**

Except where otherwise authorized by statute, costs shall meet the following general criteria in order to be allowable under Federal awards:

- A. Be necessary and reasonable for proper and efficient performance and administration of the Federal award and be allocable thereto under these principles.

To determine whether a cost is reasonable, consideration shall be given to:

1. whether a cost is a type generally recognized as ordinary and necessary for the operation of the District or the proper and efficient performance of the Federal award;
2. the restraints or requirements imposed by such factors as sound business practices, arm's length bargaining, Federal, State, local, tribal, and other laws and regulations;
3. market prices for comparable goods or services for the geographic area;
4. whether the individuals concerned acted with prudence in the circumstances considering their responsibilities; and
5. whether the cost represents any significant deviation from the established practices or Board policy which may unjustifiably increase the expense.

While Federal regulations do not provide specific descriptions of what satisfies the necessary element beyond its inclusion in the reasonableness analysis above, whether a cost is necessary is determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the District can demonstrate that the cost addresses an existing need, and can prove it.

When determining whether a cost is necessary, consideration may be given to whether:

1. the cost is needed for the proper and efficient performance of the grant program;
2. the cost is identified in the approved budget or application;
3. there is an educational benefit associated with the cost;
4. the cost aligns with identified needs based on results and findings from a needs assessment;
5. the cost addresses program goals and objectives and is based on program data.

A cost is allocable to the Federal award if the goods or services involved are chargeable or assignable to the Federal award in accordance with the relative benefit received. This standard is met if the cost: is incurred specifically for the Federal award; benefits both the Federal award and other work of the District and can be distributed in proportions that may be approximated using reasonable methods; and is necessary to the overall operation of the District and is assignable to the Federal award in accordance with cost principles mentioned here.

- A. Conform to any limitations or exclusions set forth in the cost principles in Part 200 or in the terms and conditions of the Federal award, including prohibitions regarding costs incurred for telecommunications and video surveillance services or equipment.
- B. Be consistent with policies and procedures that apply uniformly to both Federally-financed and other activities of the District.
- C. Be accorded consistent treatment. A cost cannot be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to a Federal award as an indirect cost under another award.
- D. Be determined in accordance with generally accepted accounting principles.
- E. Be representative of actual cost, net of all applicable credits, or offsets.

The term applicable credits refers to those receipts or reductions of expenditures that operate to offset or reduce expense items allocable to the Federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the State relate to the Federal award, they shall be credited to the Federal award, either as a cost reduction or a cash refund, as appropriate.

- F. Be not included as a match or cost-share, unless the specific Federal program authorizes Federal costs to be treated as such.
- G. Be adequately documented:
  - 1. in the case of personal services, the Superintendent shall implement a system for District personnel to account for time and efforts expended on grant-funded programs to assure that only permissible personnel expenses are allocated;
  - 2. in the case of other costs, all receipts and other invoice materials shall be retained, along with any documentation identifying the need and purpose for such expenditure if not otherwise clear.
- H. Be incurred during the approved budget period.

The budget period means the time interval from the start date of a funded portion of an award to the end date of that funded portion during which recipients are authorized to carry out authorized work and expend the funds awarded, including any funds carried forward or other revisions pursuant to the law. Prior written approval from the Federal awarding agency or State pass-through entity may be required to carry forward unobligated balances to subsequent budget periods, unless waived.

### **Selected Items of Cost**

The District shall follow the rules for selected items of cost at 2 C.F.R. Part 200, Subpart E when charging these specific expenditures to a Federal grant. When applicable, Center staff shall check costs against the selected items of cost requirements to ensure the cost is allowable. In addition, State, District, and program-specific rules, including the terms and conditions of the award, may deem a cost as unallowable and District personnel shall follow those rules as well.

The following rules of allowability must apply to equipment and other capital expenditures:

- A. Capital expenditures for general purpose equipment, buildings, and land are unallowable as direct charges, except with the prior written approval of the Federal awarding agency or pass-through entity.
- B. Capital expenditures for special purpose equipment are allowable as direct costs, provided that items with a unit cost of \$5,000 or more have the prior written approval of the Federal awarding agency or pass-through entity.
- C. Capital expenditures for improvements to land, buildings, or equipment which materially increase their value or useful life are unallowable as a direct cost except

with the prior written approval of the Federal awarding agency, or pass-through entity.

C.D. All federally-funded contracts in excess of \$2,000 related to construction, alteration, repairs, painting, decorating, etc. must comply with Davis-Bacon prevailing wage requirements.

D.E. Allowability of depreciation on buildings, capital improvements, and equipment shall be in accordance with 2 CFR 200.436 and 2 CFR 200.465.

E.F. When approved as a direct cost by the Federal awarding agency or pass-through entity under Sections A - C, capital expenditures will be charged in the period in which the expenditure is incurred, or as otherwise determined appropriate and negotiated with the Federal awarding agency.

F.G. If the District is instructed by the Federal awarding agency to otherwise dispose of or transfer the equipment, the costs of such disposal or transfer are allowable.

### **Cost Compliance**

The Superintendent shall require that grant program funds are expended and are accounted for consistent with the requirements of the specific program and as identified in the grant application. Compliance monitoring includes accounting for direct or indirect costs and reporting them as permitted or required by each grant. Costs incurred for the same purpose in like circumstances shall be treated consistently as either direct or indirect costs, but may not be double charged or inconsistently charged as both.

### **Determining Whether a Cost is Direct or Indirect:**

A. Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a Federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

These costs may include: salaries and fringe benefits of employees working directly on a grant-funded project; purchased services contracted for performance under the grant; travel of employees working directly on a grant-funded project; materials, supplies, and equipment purchased for use on a specific grant; program evaluation costs or other institutional service operations; and infrastructure costs directly attributable to the program (such as long-distance telephone calls specific to the program, etc.). Direct costs may also include capital expenditures if approved by the Federal awarding agency or pass-through entity, as well as capital expenditures for special purpose equipment with a unit cost of less than \$5,000.

- B. Indirect costs are those that have been incurred for a common or joint purpose benefitting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. Costs incurred for the same purpose in like circumstances shall be treated consistently as either direct or indirect costs.

These costs may include: general data processing, human resources, utility costs, maintenance, accounting, etc.

Federal education programs with supplement not supplant provisions must use a restricted indirect cost rate. In a restricted rate, indirect costs are limited to general management costs. General management costs do not include divisional administration that is limited to one (1) component of the District, the governing body of the District, compensation of the Superintendent, compensation of the chief executive officer of any component of the District, and operation of the immediate offices of these officers.

The salaries of administrative and clerical staff should normally be treated as indirect costs. Direct charging of these costs may be appropriate only if all of the following conditions are met:

1. Administrative or clerical services are integral to a project or activity.
2. Individuals involved can be specifically identified with the project or activity.
3. Such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency.
4. The costs are not also recovered as indirect costs.

Where a Federal program has a specific cap on the percentage of administrative costs that may be charged to a grant, that cap shall include all direct administrative charges as well as any recovered indirect charges.

Effort should be given to identify costs as direct costs whenever practical, but allocation of indirect costs may be used where not prohibited and where indirect cost allocation is approved ahead of time by the Ohio Department of Education (ODE) or the pass-through entity (Federal funds subject to 2 C.F.R. Part 200 pertaining to determining indirect cost allocation).

Equipment and other capital expenditures are unallowable as indirect costs.

## **Timely Obligation of Funds**

Financial obligations are orders placed for property and services, contracts and subawards made, and similar transactions that require payment. This term is used when referencing a recipient's or subrecipient's use of funds under a Federal award.

The following list illustrates when funds are determined to be obligated under the U.S. Department of Education regulations:

If the obligation is for:

- A. Acquisition of property - on the date which the District makes a binding written commitment to acquire the property.
- B. Personal services by an employee of the District - when the services are performed.
- C. Personal services by a contractor who is not an employee of the District - on the date which the Center makes a binding written commitment to obtain the services.
- D. Performance of work other than personal services - on the date when the District makes a binding written commitment to obtain the work.
- E. Public utility services - when the District receives the services.
- F. Travel - when the travel is taken.
- G. Rental of property - when the District uses the property.
- H. A pre-agreement cost that was properly approved by the Secretary under the cost principles in 2 C.F.R. Part 200, Subpart E - Cost Principles - on the first day of the project period.

## **Period of Performance**

All financial obligations must occur during the period of performance. Period of performance means the total estimated time interval between the start of an initial Federal award when the District is permitted to carry out the work authorized by the grant and the planned end date. The period of performance may include one (1) or more funded portions or budget periods. The period of performance is dictated by statute and will be indicated in the Grant Award Notification (GAN). As a general rule, State-administered Federal funds are available for obligation within the year that Congress appropriates the funds for. However, given the unique nature of educational institutions, for many Federal education grants, the period of performance is twenty-seven (27) months. This maximum period includes a fifteen (15) month period of initial availability, plus a twelve (12) month period for carryover. For direct grants, the period of performance is generally identified in the GAN.

In the case of a State-administered grant, financial obligations under a grant may not be made until the application is approved or is in substantially approvable form, whichever is later. In the case of a direct grant, a grantee may use grant funds only for obligations it makes during the grant period, unless an agreement exists with the awarding agency or the pass-through entity (e.g., ODE) to reimburse for pre-approval expenses.

If a Federal awarding agency or pass-through entity approves an extension, or if the District extends under C.F.R. 200.308(e)(2), the Period of Performance will be amended to end at the completion of the extension. If a termination occurs, the Period of Performance will be amended to end upon the effective date of termination. If a renewal is issued, a distinct Period of Performance will begin.

For both State-administered and direct grants, regardless of the period of availability, the District shall liquidate all financial obligations incurred under the award not later than ninety (90) days after the end of the funding period unless an extension is authorized. Any funds not obligated within the period of performance or liquidated within the appropriate timeframe are said to lapse and shall be returned to the awarding agency. Consequently, the District shall closely monitor grant spending throughout the grant cycle.

## 6325 - PROCUREMENT – FEDERAL GRANTS/FUNDS

Procurement of all supplies, materials, equipment, and services paid for from Federal funds or District matching funds shall be made in accordance with all applicable Federal, State, and local statutes and/or regulations, the terms and conditions of the Federal grant, Board policies, and administrative procedures.

The Treasurer/CFO shall have and use a procurement and contract administration system in accordance with the USDOE requirements (2 C.F.R. 200.317-.326), including affirmative steps for small and minority businesses and women's business enterprises, for the administration and management of Federal grants and Federally-funded programs. The District shall maintain oversight that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of the District's documented general purchasing Board Policy 6320.

All Federally-funded contracts in excess of \$2,000 related to construction, alteration, repairs, painting, decorating, etc. must comply with Davis-Bacon prevailing wage requirements.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, award, and administration of contracts as established in Board Policy 1130, Board Policy 3113 and Board Policy 4113 – Conflict of Interest.

The District shall avoid acquisition of unnecessary or duplicative items. Additionally, consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allowability of each purchase made with Federal funds.

To foster greater economy and efficiency, the District may enter into State and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

### **Competition**

All procurement transactions for the acquisition of property or services required under a Federal award shall be conducted in a manner that encourages full and open competition and that is in accordance with good administrative practice and sound business judgment. In order to promote objective contractor performance and eliminate unfair competitive advantage, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Some of the situations considered to be restrictive of competition include, but are not limited to, the following:

- A. unreasonable requirements on firms in order for them to qualify to do business;
- B. unnecessary experience and excessive bonding requirements;
- C. noncompetitive pricing practices between firms or between affiliated companies.
- D. noncompetitive contracts to consultants that are on retainer contracts;
- E. organizational conflicts of interest;
- F. specification of only a “brand name” product instead of allowing for an “or equal” product to be offered and describing the performance or other relevant requirements of the procurement; or
- G. any arbitrary action in the procurement process.

Further, the District does not use statutorily or administratively imposed State, local, or tribal geographical preferences in the evaluation of bids or proposals, unless (1) an applicable Federal statute expressly mandates or encourages a geographic preference; or (2) the District is contracting for architectural and engineering services, in which case geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

To the extent that the District uses a pre-qualified list of persons, firms or products to acquire goods and services, the pre-qualified list includes enough qualified sources as to ensure maximum open and free competition. The District allows vendors to apply for consideration to be placed on the list continuously.

The District shall require that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to provide maximum open and free competition. The District shall not preclude potential bidders from qualifying during the solicitation period.

### **Solicitation Language**

The District shall require that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it shall conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which shall be met by offers shall be clearly stated; and identify all requirements which the offerors shall fulfill and all other factors to be used in evaluating bids or proposals.

The Board shall not approve any expenditure for an unauthorized purchase or contract.

## **Procurement Methods**

The District shall utilize the following methods of procurement:

### **A. Micro-purchases**

Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed \$~~105,000~~ 105,000. To the extent practicable, the District shall distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be made without soliciting competitive quotations if the Superintendent considers the price to be reasonable. The District maintains evidence of this reasonableness in the records of all purchases made by this method.

### **B. Small Purchases**

Small purchase procedures provide for relatively simple and informal procurement methods for securing services, supplies, and other property that does not exceed the competitive bid threshold of \$250,000. Small purchase procedures require that price or rate quotations shall be obtained from an adequate number of qualified sources as determined appropriate by the Board ~~a minimum of three (3) adequate number of qualified sources.~~

### **C. Sealed Bids**

Sealed, competitive bids shall be obtained when the purchase of, and contract for, single items of supplies, materials, or equipment which amounts to \$250,000 and when the Board determines to build, repair, enlarge, improve, or demolish a school building/facility the cost of which shall exceed \$~~5025,000~~ 25,000.

In order for sealed bidding to be feasible, the following conditions shall be present:

1. a complete, adequate, and realistic specification or purchase description is available;
2. two (2) or more responsible bidders are willing and able to compete effectively for the business; and

3. the procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

When sealed bids are used, the following requirements apply:

4. Bids shall be solicited in accordance with the provisions of applicable laws and regulations and Board Policy 6320. Bids shall be solicited from a minimum of three (3) adequate number of qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
5. The invitation for bids shall include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.
6. All bids shall be opened at the time and place prescribed in the invitation for bids; bids shall be opened publicly.
7. A firm fixed price contract award shall be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
8. The Board reserves the right to reject any or all bids for sound documented reason.

#### D. Competitive Proposals

Procurement by competitive proposal, normally conducted with more than one source submitting an offer, is generally used when conditions are not appropriate for the use of sealed bids or in the case of a recognized exception to the sealed bid method.

If this method is used, the following requirements apply:

1. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.
2. Proposals shall be solicited from a minimum of three (3) adequate number of sources.

3. The District shall use its written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts shall be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

The District may use competitive proposal procedures for qualifications- based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

E. Noncompetitive Proposals

Procurement by noncompetitive proposals allows for solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

1. the item is available only from a single source;
2. the public exigency or emergency for the requirement shall not permit a delay resulting from competitive solicitation;
3. the Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the District; and/or
4. after solicitation of a number of sources, competition is determined to be inadequate.

F. Noncompetitive Purchases Through Educational Service Centers (Districts)

Under State law, the Board may enter into a contract with another educational service center ("District") that authorizes the other District to make purchases for supplies, materials, equipment, and services or the delivery of services on the Board's behalf. These contracts promote operational efficiency and cost savings, and further enhance the educational experience for our students. Purchases made through such contracts are exempt from competitive bidding.

The Board may apply for approval from ODE to use a noncompetitive purchasing method to procure personnel-based services from another District only when the following criteria are met:

1. The other District posts a list of all services it provides including costs of these services on its website;
2. The other District has been designated as “high performing” by the Ohio Department of Education, and
3. ODE as the passthrough state entity has determined that the other District was substantially in compliance with all audit rules and guidelines during the most recent audit conducted by the Auditor of State.

The Treasurer/CFO will submit an application and any required documentation to ODE on the designated form requesting approval for use of a noncompetitive purchasing method for personnel services. Purchases will not be made until the application is approved. Notice of approval will be maintained by the Treasurer/CFO.

### **Contract/Price Analysis**

The District shall perform a cost or price analysis in connection with every procurement action in excess of \$150,000, including contract modifications. A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the District shall come to an independent estimate prior to receiving bids or proposals.

When performing a cost analysis, the District shall negotiate profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor’s investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

### **Time and Materials Contracts**

The District uses a time and materials type contract only (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the District is the sum of the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, the District sets a ceiling price for each contract that the contractor exceeds at its own risk. Further, the District shall assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

## **Suspension and Debarment**

The District shall award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. All purchasing decisions shall be made in the best interests of the District and shall seek to obtain the maximum value for each dollar expended. When making a purchasing decision, the District shall consider such factors as (1) contractor integrity; (2) compliance with public policy; (3) record of past performance; and (4) financial and technical resources.

The Superintendent shall have the authority to suspend or debar a person/corporation, for cause, from consideration or award of further contracts. The District is subject to and shall abide by the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 C.F.R. Part 180.

Suspension is an action taken by the District that immediately prohibits a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 C.F.R. chapter 1) for a temporary period, pending completion of an agency investigation and any judicial or administrative proceedings that may ensue. A person so excluded is suspended. (2 C.F.R. Part 180 Subpart G)

Debarment is an action taken by the Superintendent to exclude a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 C.F.R. chapter 1). A person so excluded is debarred. (2 C.F.R. Part 180 Subpart H)

The District shall not subcontract with or award subgrants to any person or company who is debarred or suspended. For contracts over \$25,000, the District shall confirm that the vendor is not debarred or suspended by either checking the Federal government's System for Award Management, which maintains a list of such debarred or suspended vendors at [www.sam.gov](http://www.sam.gov); collecting a certification from the vendor; or adding a clause or condition to the covered transaction with that vendor. (2 C.F.R. Part 180 Subpart C)

## **Bid Protest**

The District maintains the following protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency.

A bidder who wishes to file a bid protest shall file such notice and follow procedures prescribed by the Request for Proposals ("RFP"s) or the individual bid specifications package, for resolution. Bid protests shall be filed in writing with the Superintendent within seventy- two (72) hours of the opening of the bids in protest.

Within five (5) days of receipt of a protest, the Superintendent shall review the protest as submitted and render a decision regarding the merits of the protest and any impact on the acceptance and rejection of bids submitted. Notice of the filing of a bid protest shall be communicated to the Board

and shall be so noted in any subsequent recommendation for the acceptance of bids and awarding of contracts.

Failure to file a notice of intent to protest, or failure to file a formal written protest within the time prescribed, shall constitute a waiver of proceedings.

### **Maintenance of Procurement Records**

The District maintains records sufficient to detail the history of all procurements. These records shall include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price (including a cost or price analysis).

## 6423 - USE OF CREDIT CARDS

The Board recognizes the value of an efficient method of payment and recordkeeping for certain expenses.

The Board, therefore, authorizes the use of District credit cards. The name of the Board shall appear on each District credit card and check related to a credit card account held by the District. A "credit card account" shall include any bank-issued credit card account, store-issued credit card account, financial institution-issued credit card account, financial depository-issued credit card account, affinity credit card account, or any other card account allowing the holder to purchase goods or services on credit or otherwise transact with the account, and any debit or gift card account related to the receipt of grant monies. The term expressly excludes any procurement card account, gasoline or telephone credit card account, or any other card account where merchant category codes are in place as a system of control for use of the account.

The authorization, handling and use of credit cards has been established to provide a convenient and efficient means to purchase goods and services from vendors. Credit cards, however, shall not be used in order to circumvent the general purchasing procedures established by State law and Board policy. The Board affirms that credit cards shall only be used in connection with Board-approved or school-related activities and that only those types of expenses that are for the benefit of the District and serve a valid and proper public purpose shall be paid for by credit card. However, under no circumstances shall credit cards be used for personal purchases or the purchase of alcoholic beverages regardless of whether the purchase of such beverages is made in connection with a meal. Use of credit cards in an unauthorized or illegal manner may result in revocation of credit card privileges, disciplinary action and/or, where appropriate, may require the user to pay any and all inappropriate charges, including finance charges and interest assessed in connection with the purchase. Additionally, any officer or employee of the District who knowingly misuses a credit card account is guilty of the criminal offense of misuse of credit cards. Violations will be reported to the appropriate law enforcement authorities and any applicable licensure board(s).

The Treasurer/CFO shall be responsible for the initial issuance, reissuance, and cancellation of District credit cards and shall maintain written procedures and all appropriate records and reports regarding the District's credit card account(s). Records and reports will be maintained and made available for review in accordance with this policy and State law.

### **Substitutions**

If determined appropriate by a student's Section 504 team, substitutions to the standard meal requirements shall be made, at no additional charge, for students for whom a health care provider who has prescriptive authority in the State of Ohio has provided medical certification that the student has a disability that restricts his/her diet, in accordance with the criteria set forth in 7 C.F.R. Part 15b. To qualify for such substitutions the medical certification must identify:

- A. the student's disability and the major life activity affected by the disability;
- B. an explanation of why the disability affects the student's diet; and
- C. the food(s) to be omitted from the student's diet and the food or choice of foods that must be substituted (e.g., caloric modifications or use of liquid nutritive formula).

If determined appropriate by a team of qualified individuals including, but not limited to, the Principal, school nurse, parent, and/or Food Service Supervisor, substitutions to the standard meal requirements may be made, at no additional charge, for a student who is not a "disabled person" but has a signed statement from a qualified medical authority that the student cannot consume certain food items due to medical or other special dietary needs. To qualify for such consideration and substitutions the medical statement must identify:

- A. the medical or dietary need that restricts the student's diet; and
- B. the food(s) to be omitted from the student's diet and the food(s) or choice of foods that may be substituted.

For students without disabilities who need a nutritionally equivalent milk substitute, only a signed request by a parent or guardian is required. While the request must specify the medical or other special dietary need that restricts the student's diet (i.e., precludes the student's consumption of cow's milk), medical certification may not be required.

Meals sold by the school may be purchased by students and staff members and community residents in accordance with administrative guidelines established by the Superintendent. Meals may be made available, free of charge, to senior citizens who are serving as volunteers to the District.

The operation and supervision of the food-service program shall be the responsibility of the Food Service Supervisor. In accordance with federal law, the Food Service Supervisor shall take such actions as are necessary to obtain a minimum of two (2) food safety inspections per school year, which are conducted by the State or local governmental agency responsible for food safety inspections. The report of the most recent inspection will be posted in a publicly visible location, and a copy of the report will be available upon request.

A periodic review of the food-service accounts shall be made by the Treasurer/CFO. Any surplus funds from the National School Lunch Program or the Healthy, Hunger-Free Kids Act of 2010 (P.L. 111-296) shall be used to reduce the cost of the service to students or to purchase cafeteria equipment. Surplus funds from a-la-carte foods may accrue to the food-service program.

Bad debt incurred through the inability to collect meal payment from students is not an allowable cost chargeable to any Federal program. Any related collection cost, including legal cost, arising from such bad debt after they have been determined to be uncollectable are also unallowable.

Bad debt is uncollectable/delinquent debt that has been determined to be uncollectable by the end of the school year in which the debt was incurred. If the uncollectable/delinquent debt cannot be recovered by the School Meals Program in the year when the debt was incurred, then this is classified as bad debt. Once classified as bad debt, non-Federal funding sources must reimburse the NSFSA for the total amount of the bad debt. The funds may come from the District general fund, State or local funding, school or community organizations such as the PTA, or any other non-Federal source. Once the uncollectable/delinquent debt charges are converted to bad debt, records relating to those charges must be maintained in accordance with the record retention requirements in 7 C.F.R. 210.9(b) (17) and 7 C.F.R. 210.15(b).

The Superintendent is authorized to develop and implement an administrative guideline regarding meal charge procedures. This guideline will provide consistent directions for students who are eligible for reduced price or paid meals but do not have funds in their account or in hand to cover the cost of their meal at the time of service and shall also address feeding students with unpaid meal balances without stigmatizing them.

This guideline shall be provided in writing to all households at the start of each school year and to households transferring to the school or School District during the school year.

- I. all District employees whose salaries are paid for with USDA funds or non-Federal funds used to meet a match or cost-share requirement must comply with the District's time and effort record-keeping policy (see Policy 6116).

In accordance with the nutritional standards adopted by the Board, the placement of vending machines in any classroom where students are provided instruction unless the classroom is also used to serve meals to students is prohibited.

The District shall serve only nutritious food in accordance with the nutritional standards adopted by the Board in compliance with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines. Foods and beverages in competition with the District's food-service program must comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition guidelines, and may only be sold in accordance with Board Policy 8550.

The Superintendent will require that the food service program serve foods in the schools of the District that are wholesome and nutritious and reinforce the concepts taught in the classroom.

The Superintendent is responsible for implementing the food service program in accordance with the adopted nutrition standards and shall provide a report regarding the District's compliance with the standards at one of its regular meetings annually.
